

David Molin, CFA

Director of Research, Stable Value
PFM Asset Management LLC

David joined PFM after the acquisition of Fiduciary Capital Management (FCM) assets in 2017. David spent 17 years with FCM as director of research, where he was responsible for the oversight of fixed income strategies and credit research. David's current responsibilities include coverage of stable value product issuers, oversight of fixed income sub-advisors and the development of customized stable value strategies. He is a member of the Stable Value Investment Committee.

David began his career as a commissioned bank examiner within the FDIC's Division of Supervision. During his time with the FDIC, he supervised or assisted in the safety and soundness examinations of financial institutions ranging from small community to large regional banks. He also specialized in capital markets activities. After leaving the FDIC in 1999, David was an audit supervisor with FleetBoston Financial where he conducted audits of capital markets, treasury and risk management activities.
