

Paul Beatty

Director
PFM

Paul joined PFM in 2017 and is the director of IT applications delivery for PFM. In this role, Paul leads development, implementation, and support of numerous lines of business applications, administrative systems, and client transactional portals, with a focus on technical innovation, user experience, and delivery excellence.

Prior to joining PFM, Paul held various senior technical leadership and management roles at Comcast, including leading efforts to develop prospect/customer online experiences, implementing numerous lines of business applications, and continuously upgrading/enhancing enterprise-wide administrative systems.
